

Argentina

The best sea trout and wild rainbow fishing in the world and our combi-tours wrap it up into one package! If size (and numbers) really counts, Las Buitreras Lodge and Jurassic river camp by far the most productive fishingtrip available anywhere in the world.

Where else can a party of 8 rods count to catch between 500-2500 fish for 8 rods in a week - with average weight over 10lb???? We know it sounds crazy... that's because it is crazy. At the same time, is it all about numbers and weight? Maybe only partly.

It's also about the challenge, it's about the nature, and it's about the camaraderie and enjoyment. That's exactly our focus. We guarantee and deliver many laughs, friendly staff, superb food and wine, helpful guides, a flexible fishing scheme and lots of water.

This is exactly why so many choose to come back year after year.

Cuba

A dream has come true!

When I began saltwater fishing 20 years ago it was a shock. The awesome power of the tarpon and the unreality of sight-casting to slowly cruising, large fish was spellbinding!

The adrenaline influence one experiences while trying to get the fly in front of them is addictive. That's why we are now operating in Cuba and hosting fantasy trips for the chosen few.
